PACKAGING

65 gsm CENTRE-FEED ROLLS

PAPER VOID FILL

TECHNICAL DATA SHEET

The paper is made from 100% recycled post-consumer waste based paper with added chemicals, which is itself 100% recyclable after use.

It is emphasised that all chemicals are present as trace elements and are not considered hazardous under COSHH regulations.

We confirm that these products conform to the Packaging (Essential Requirements) Regulations SI 2015 No. 1640.
